

The Recurve Bow 1940's

The Compound Bow 1970's

The Programmed Bow 1980's

**The New Bear Delta-V™** THE WORLD'S  
FASTEST  
BOW

# The New Bear Delta-V™

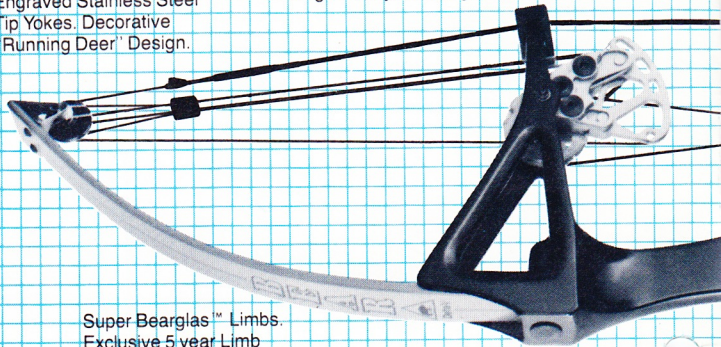

## *Tomorrow's Bow for Today's Bowhunters!*

"These tests demonstrate that the Delta-V is, without question, a remarkably fast bow. Based on my tests to date, it has an advantage of 20 to 25 feet per second over any presently available commercial bow."

Norbert F. Mullaney  
Independent Professional Engineer

## New Interchangeable Speed Blocks Color Matched to Your Draw Length!

An integral part of the Multi-Ratio Cam Assembly, these Blocks can be changed to provide you with maximum bow performance and arrow delivery speed at your particular draw length. Color coded for easier, more dependable bow tuning.

Draw Length	Speed Block Color
25" 26" 27"	Silver
28" 29" 30"	Firemist
31" 32" 33"	Twilight Blue

## **New Multi-Ratio High Energy Storage Cams!**

This astounding technological development gives Delta-V its powerful thrust and makes Delta-V unlike any other bow (compound or recurve) that man has ever developed! Delta-V is the fastest bow in the world! Made of glass-filled Nylon with Gun Metal Blue alloy components! High energy storage cams! Delta-V Advanced Design allows you to easily change draw lengths.

### **Power Bumpers**

*Eliminates String-Shock, Recoil! Wait 'til you shoot it, you'll be amazed!*

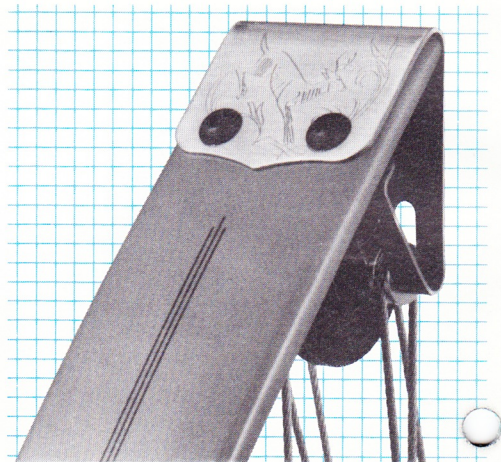

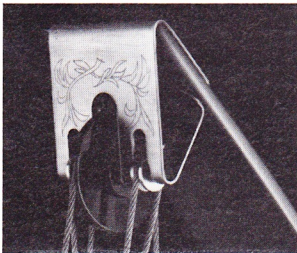

## **New Engraved Stainless Steel Tip Yokes** **Decorative "Running Deer" Design**

Protects the Wheel/Cable Assembly while serving its critical function as an Action Point Cable Spacer.

The attractive design is carried over on both sides of the Tip Yoke.

### **Gun-Metal Blue Tip Wheel**

*Low mass design for faster limb recovery.*

## **The First True Centerline Bow!**

Sculpted handle section for strength, true center shot and beauty. Sight window cut  $\frac{1}{2}$ " past center. Distinctive arrow rest. Choice of two grip shapes—standard and high wrist.

## **Exclusive 5 Year Warranty**

Your Delta-V Super Bearglas™ limbs carry an unheard-of 5 year warranty. See back page for details.

**Delta-V is an engineering term  
meaning "Change in velocity."**

# The New Bear Delta-V™ THE WORLD'S FASTEST BOW

## Bear Exclusive Limb Warranty!!!

### Limited Five (5) Year Super Bearglas™ Limb Warranty

**SUPER BEARGLAS™** Limbs, a product of Bear's advanced technology, are made by embedding fiberglass in an epoxy-based resin matrix which produces a limb having superb strength and durability. The limbs are warranted to the original purchaser of the bow against defects in materials and workmanship for five (5) years from the date of purchase. If within such period a defect occurs in a limb which shall not have resulted from modification of the bow, chemical contamination or misuse, Bear will, free of charge, replace the limb.

To obtain service on the limbs, merely take or send the bow postpaid to the authorized Bear Archery Warranty Service Center nearest you. Be sure to attach to the bow your name, address and telephone number, and include proof of the date of retail purchase such as a sales slip. This warranty gives you specific legal rights and you may also have other rights which vary from state to state.
